REPORT OF INDEPENDENT AUDITORS

To the Board of Directors of
The La Porte Area Water Authority
La Porte, Texas

We have audited the accompanying basic financial statements of the La Porte Area Water Authority (the “Authority”), a component unit of the City of La Porte, Texas as of and for the year ended September 30, 2014, and the related notes to the financial statements, as listed in the table of contents.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Authority, as of September 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Texas Supplementary Information unless marked "unaudited" and the Schedule of Revenues and Expenses – Budget and Actual – (Budgetary Basis), is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

LA PORTE AREA WATER AUTHORITY

Management's Discussion and Analysis

As management of the La Porte Area Water Authority, we offer readers of the Water Authority's financial statements this narrative overview and analysis of the financial activities of the Water Authority for the fiscal year ended September 30, 2014.

Financial Highlights

- The assets of the La Porte Area Water Authority exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$8,032,040 (net position). Of this amount, \$2,227,635, unrestricted net position, may be used to meet the government's ongoing obligations to citizens and creditors in accordance with the Water Authority's fund designation and fund policies.
- The government's total net position increased by \$534,706.
- The Water Authority's total bonded debt decreased \$647,312 by during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction of the Water Authority's basic financial statements. The La Porte Area Water Authority is considered a component unit of the City of La Porte, Texas since the Water Authority provides approximately 86% of its services for the exclusive benefit of the City of La Porte. The Water Authority's basic financial statements are comprised of the fund financial statements and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Fund financial statements – The operations of the Water Authority are recorded in a proprietary (enterprise) fund. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Water Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The statement of net position presents information on all the Water Authority's assets, liabilities and deferred inflows of resources, with the difference between the three reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Water Authority is improving or deteriorating.

The statement of revenues, expenses and changes in net position presents information showing how the government's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected receivables and accounts payable due to suppliers).

The fund financial statements can be found on pages 10-12 of this report.

LA PORTE AREA WATER AUTHORITY
Management's Discussion and Analysis (continued)

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the fund financial statements. The notes to the financial statements can be found on pages 13-19 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the Water Authority's operations. Required supplementary information can be found on pages 23-36 of this report.

Financial Analysis of the Government's Funds

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the La Porte Area Water Authority, assets exceeded liabilities and deferred inflows of resources by \$8,032,040 at the close of the fiscal year.

The largest portion of the Water Authority's net position \$4,657,245 reflects its investment in capital assets (e.g., water production and distribution system), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide water services to the participants; consequently, these assets are not available for future spending. Although the Water Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

La Porte Area Water Authority's Net position

	Business-Type Activities	
	2014	2013
	<u> </u>	<u> </u>
Current and other assets	\$ 3,423,506	\$ 3,105,835

Total Net Position - ending	<u><u>\$ 8,032,040</u></u>	<u><u>\$ 7,497,334</u></u>

Total net position increased by \$534,706 in 2014. The actual water revenue for fiscal year ended September 30, 2014, of \$1,195,886 was \$3,785 higher than the amount budgeted of \$1,192,101

LA PORTE AREA WATER AUTHORITY
Management's Discussion and Analysis (continued)

Capital Assets and Debt Administration

Capital Assets - The La Porte Area Water Authority's investment in capital assets as of September 30, 2014 amounts to \$6,344,826 (net of accumulated depreciation).

There were not any additions or retirements of capital assets during the current fiscal year. The only activity is current year depreciation in the amount of \$465,000. Capital assets at year end consisted of the following:

	<u>Ending Balance</u>
Water, sewer and drainage facilities	
Water production and distribution system	\$ 6,344,826
	<u>\$ 6,344,826</u>

Additional information of the La Porte Area Water Authority's capital assets can be found in Note 5 on page 16 of this report.

Debt Administration – At the end of the fiscal year, the La Porte Area Water Authority had bonded debt payable of secured solely by water and sewer revenues. The revenue bonds have been rated “AA” by Standard & Poor's, Fitch and Moody's rating agencies.

Additional information on the Water Authority's long-term debt can be found in Note 7 on page 17-18 of this report.

Economic Facts and Next Year's Budgets and Rates

The Water Authority has benefited from a strong and expanding economy from the past several years. In the coming fiscal year the Water Authority's budget is expected to remain relatively consistent with prior year.

Request for Information

This financial report is designed to provide a general overview of the La Porte Area Water Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report of requests for additional information should be addressed to the Director of Finance, 604 West Fairmont Parkway, La Porte, Texas, 77571.

Note 1 - Creation of Authority

The La Porte Area Water Authority (the “Authority”) was created on May 30, 1981 by Chapter 729, Page 2678, Acts of the 67th Legislature of the State of Texas. This bill authorizes the Authority to purchase, construct or otherwise acquire waterworks systems, sanitary sewer systems, storm sewer systems and drainage facilities or parts of such systems of facilities and to operate and maintain such facilities. The Authority is authorized to set rates for services related to the aforementioned systems and facilities, and issue revenue bonds for the purpose of acquiring and maintaining such systems. The Authority comprises approximately 20,600 acres in Harris County, Texas.

Note 2 - Summary of Significant Accounting Policies

The accounting policies of the Authority conform with generally accepted accounting principles. The following is a summary of the most significant policies:

A. Reporting Entity

Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled Audits of State and Local Governmental Units and by the Financial Accounting Standards Board (when applicable). GASB Statement 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* (“GASB 62”), which incorporates into the GASB’s authoritative literature certain accounting and financial reporting guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict or contradict GASB pronouncements: 1) Financial Accounting Standards Board (FASB) Statements and Interpretations; 2) Accounting Principles Board Opinions; 3) Accounting Research Bulletins of the American Institute of Certified Public Accountants’ (AICPA) Committee on Accounting Procedure. Implementation of GASB 62 is reflected in the financial statements and notes to the financial statements.

Consideration regarding the potential for inclusion of other entities, organizations or functions in the Authority’s financial reporting entity is based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the Authority is a part of any other governmental or other type of reporting entity. Criteria for determining component unit status under generally accepted accounting principles included considerations pertaining to organizations for which the primary government is financially accountable and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The La Porte Area Water Authority is considered a component unit of the City of La Porte, Texas by virtue of meeting the criteria noted above. The primary factor in determining component unit status is that the Authority provides approximately 86% of its services for the exclusive benefit of the City of La Porte. The Authority’s financial operations are included as an Enterprise Fund in the City’s Comprehensive Annual Financial Report as a blended component unit. The City of La Porte is referred to as “Primary Government” throughout the authority’s financial statements.

Note 2 - Summary of Significant Accounting Policies (continued)

B. Fund Accounting

The operations of the Authority are recorded in an enterprise fund. Enterprise funds are used to account for operations (a) that are financed primarily through user charges or (b) where the governing body has decided that determination of net income is appropriate. The enterprise fund is a proprietary fund type.

C. Basis of Accounting

Enterprise Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are presented on the statement of net position in a classified format to distinguish between current and long-term assets and liabilities. Net position is presented in three components: net investment in capital assets; restricted; and unrestricted. Enterprise fund operating statements present increases (e.g., revenues), decreases (e.g., expenses) and changes in net position.

Enterprise funds are accounted for using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized at the time liabilities are incurred.

D. Cash Equivalents

For purposes of the statement of cash flows, the Authority considers cash held in demand accounts and all short-term investments with a maturity at date of purchase of three months or less to be cash equivalents.

E. Physical Facilities and Depreciation

Fixed assets, which consist of a water production and distribution system, are shown at original cost. Interest paid during construction of facilities, if any, is also included in this cost. Depreciation has been provided for the Authority's water production and distribution system using the straight-line method over a 30-year estimated useful life.

Note 3 - Cash and Cash Equivalents

Cash and cash equivalents represent the Authority's equity interest in the City's consolidated cash and cash equivalents account consisting of demand accounts and short-term investments with a maturity at date of purchase of three months or less. State statutes require that all funds in depository institutions be covered by federal depository insurance and/or be secured in the manner provided by law for security of funds. Cash and cash equivalent balances held by the City were entirely covered by federal depository insurance or security as required at September 30, 2014.

At year end a portion of the Authority's cash and temporary investments were restricted as follows:

Restricted for retirement of current debt service liabilities and reserve requirements per bond covenants	<u>\$ 689,722</u>
Total Restricted Cash and Temporary Investments	<u><u>\$ 689,722</u></u>

Note 4 - Temporary Investments

Temporary investments represent the Authority’s equity interest in the City’s investment pool. At year end a portion of the Authority’s cash and temporary investments were restricted as follow:

The carrying amount for temporary investments, at September 30, 2014, was \$1,692,952, which is fair value. This represents 7.72% of the City’s total portfolio.

Pooled investments with the City consist of obligations of the United States and its agencies and investment pools in accordance with state statutes and the City’s investment policies. Securities are registered and held by their agent in the City’s name. Interest earnings are allocated on a pro-rata basis. The investment pool is not registered with the SEC or subject to any regulatory oversight. The fair value of the position in the pool is the same as the value of pool shares. The City has adopted GASB Statement No. 31, which establishes accounting and reporting standards for all of the City’s investments. In accordance with Statement No. 31, the City reports all investments at fair value, except for “money market investments” and “2a7-like pools”. Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940, such as TexPool and LOGIC, are reported using the pools’ share price.

Interest Rate Risk

The Authority’s investment policy specifies that the maximum stated maturity, from the date of purchase for any individual investment may not exceed 5 years and the maximum dollar-weighted average maturity for the pooled fund group may not exceed 2 years. At year end, the Authority’s dollar-weighted average maturity of the investment portfolio was as follows:

<u>Investment Type</u>	<u>Weighted Average Maturity (months)</u>
Public funds investment pools	1.7
Federal Home Loan Mortgage Corporation (FHLMC)	28.3
Federal National Mortgage Association (FNMA)	19.7
Federal Farm Credit Bank (FFCB)	18.0
Farmer Mac(FAMCA)	1.1
Federal Home Loan Bank (FHLB)	29.6
Portfolio Weighted Average Maturity	14.3

Note 4 - Temporary Investments (continued)

Concentration of Credit Risk

The Authority's investment policy places no limit on the amount the government may invest in any one issuer. At September 30, 2014, the Authority's investment portfolio consisted of the following investments:

<u>Investment Type</u>	<u>Percentage of Total Portfolio</u>
Public funds investment pools	58%
US Agency securities	42%
	<u>100%</u>

Credit Risk

At year end balances in TexPool, a privately managed public funds investment pool was rated AAAM by Standard & Poor's and balances in LOGIC, a privately managed public funds investment pool was rated AAAM by Standard & Poor's.

Federal Home Loan Mortgage Corporation notes, Federal Home Loan Banks bonds, Farmer Mac and Federal Farm Credit Bank notes were rated AA+ by Standard & Poor's.

All credit ratings met acceptable levels required by legal guidelines prescribed in both the PFIA and the Authority's investment policy.

Note 5 - Capital Assets

An analysis of changes in physical facilities for the year ended September 30, 2014 follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements & Adjustments</u>	<u>Ending Balance</u>
Capital assets being depreciated				
Water production and distribution system	\$ 15,435,810	\$	\$	\$ 15,435,810
Less accumulated depreciation for:				
Water production and distribution system	(8,625,984)	(465,000)		(9,090,984)
Total capital assets being depreciated, net	<u>6,809,826</u>	<u>(465,000)</u>		<u>6,344,826</u>
Investment in capital assets from:				
Contributions by participants	<u>\$ 6,809,826</u>	<u>\$ (465,000)</u>	<u>\$</u>	<u>\$ 6,344,826</u>

*D

preciation expense of \$465,000 charged to water services function/program.

Note 6 - Southeast Water Purification Plant

The Authority and the City of Houston, Texas have entered into a Cost Sharing Water Project Contract (the "Contract") wherein the Authority, the Cities of La Porte, Morgan's Point and Shoreacres agree to jointly finance the construction and operation of the Southeast Water Purification Plant (Southeast Plant). Under the terms of the Contract, the Authority purchased 4.2 million gallons per day production and 5.25 million gallons per day pumping capacity. The Cities of La Porte, Morgan's Point and Shoreacres have agreed to demand and pumping allocations of the Authority's purchase of water from the Southeast Plant.

The required funds for the undivided interest in the Southeast Plant and the construction of a transmission and distribution system to transport water from the Southeast Plant were provided by issuance of \$9.8 million revenue bonds.

The water rate to be set by the Authority will not be less than an amount sufficient to provide for payment of all expenses in producing, treating and pumping the water in connection with transmission and distribution systems and to provide payment for the interest and principal of all bonds when the bonds become due and payable.

Note 7 - Contract Revenue Bonds Payable, Debt Service Requirements and Bond Resolution Requirements

On May 13, 2010, the La Porte Area Water Authority issued \$4.085 million in Contract Revenue Refunding Bonds, Series 2010, with an average interest rate of 2.773% to purchase U.S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$2.95 million of unlimited tax bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the statement of net position. The bonds are payable from the net revenue of the Authority. The bonds are in \$5,000 denominations. Interest is payable on March 15 and September 15 of each year to maturity. The Authority is in compliance with all significant requirements and restrictions contained in the bond resolution. None of the Refunded Bonds are outstanding at September 30, 2015.

Bonds payable at September 30, 2014, are comprised of the following issue.

<u>Amount Outstanding</u>	<u>Interest Rate</u>	<u>Maturity Date</u>	<u>Interest Payment Date</u>
\$ 1,640,000	2.25-4.00%	March 15, 2017	March 15/ September 15

Bonds payable activity for the year ended September 30, 2014 was as follows:

<u>Bonds and Notes Payable</u>	<u>Beginning Balance</u>	<u>Additions</u>	<u>Retirements & Adjustments</u>	<u>Ending Balance</u>	<u>Amounts Due Within One Year</u>
Contract Revenue Refunding	\$ 2,270,000	\$	\$ (630,000)	\$ 1,640,000	\$ 650,000
Premium on bonds	59,862		(17,312)	42,550	
	<u>\$ 2,329,862</u>	<u>\$</u>	<u>\$ (647,312)</u>	<u>\$ 1,682,550</u>	<u>\$ 650,000</u>

Note 7 - Contract Revenue Bonds Payable, Debt Service Requirements and Bond Resolution Requirements (continued)

As of September 30, 2014, the debt service requirements on contract revenue bonds outstanding for the next five fiscal years are as follows:

Due During Fiscal Year Ending 9/30	<u>Annual Requirement for All Bond Series</u>		
	<u>Total Principal</u>	<u>Total Interest</u>	<u>Total Requirements</u>
2015	650,000	41,838	\$ 691,838
2016	670,000	22,850	692,850
2017	320,000	6,400	326,400
	<u>\$ 1,640,000</u>	<u>\$ 71,088</u>	<u>\$ 1,711,088</u>

Note 8 - Fund Net Position

The Authority provides surface water to the City of La Porte, Texas (the “City”) and the Cities of Shoreacres and Morgan’s Point in order for these entities to comply with certain requirements imposed by the Harris County Subsidence District. The City retains the rights to approximately 86% of the water capacity of the Authority with the Cities of Shoreacres and Morgan’s Point retaining the rights to the remaining 14%. The City, Shoreacres and Morgan’s Point have agreed to service the debt on the Authority’s contract revenue bonds and to fund operations of the Authority in relation to their capacity rights and to purchase water based on actual consumption.

As part of the debt service requirements, the participants are billed to build a reserve for future debt service requirements as set forth in the contract revenue bonds of the Authority. During the year, the Authority’s billings were applied as follows:

Water Supplied and Operating costs(User fees)	\$ 1,081,189
Debt Service Billings/ Charges	688,650
Capital recovery billings	96,087
Total Billings	<u>\$ 1,865,926</u>

Note 9 - Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Authority participates (through an endorsement on the City of La Porte’s contract) along with other entities in the Texas Municipal League’s Intergovernmental Risk Pool. The pool purchases commercial insurance at group rates for participants in the pool. Neither the Authority nor the City has additional risk or responsibility to the pool, outside of payment of insurance premiums. Neither the Authority nor the City had significantly reduced insurance coverage or had settlements that exceeded coverage amounts for the past three fiscal years.

Note 10 - Economic Dependency

The Authority receives all of its support from three municipalities, with the City of La Porte being the largest contributor at approximately 86%. In addition, the Authority contracts with the City of La Porte to provide administrative oversight and operate the Authority's transmissions system.
